

# EACH and MAP

## ^ EACH

- Create temporary var inside there

arr.each do |name|

#block

→ LABEL

end

```
name = "marcos"
```

```
arr.each do |name|  
  puts "Hi #{name}"  
end
```

```
puts name
```

↓  
tmp

## ^ MAP

- change and create a new language without the values of default list

```
arr_sobrenomes = arr.map do |name_last|  
  name_last + " Sobrenome"  
end
```

- add '!' will change default value:

```
arr.map! do |name_last|  
  name_last + " Sobrenome"  
end
```
